

Great achievements deserve iconic emotions!

Festina: 120 years of history in a Limited Edition watch

Time can't stand still, but it can be celebrated in an unforgettable way: For those who truly love the brand that is synonymous with quality, style and precision, **Festina** offers a watch in celebration of its **120th anniversary**. Passing through these 120 years of history and success, Festina has designed this iconic collection of unique automatic watches. These are true collector's items, with high technical standards, Swiss-made quality and refined design.

Festina's 120th anniversary watch is a high-end proposal designed for the greatest comfort and freedom. The silver-coloured stainless-steel case features a fluted bezel. The gents version is 41.50 mm and the ladies 34.00 mm. The strap is navy blue crocodile-effect leather which gives it a traditional handmade style touch.

The large ocean-blue dial, with line-style hour markers, has the Festina logo at 12 o'clock. The classic and natural design conceals a mechanism of great complexity: the opening at 6 o'clock reveals part of the beating heart of the watch, the flywheel. You will be fascinated by the prestigious automatic movement with a 44-hour power reserve, 23 jewels and the Incabloc dual-cone impact protection.

The patented "Swiss Made" Newton movement, protected by a sapphire crystal, is also visible through the transparent case back, which reveals also not only the oscillating weight but also the beautifully Côtes de Genève decorated blue rotor and the Festina logo. The screw-down case back has the inscription "1902 Festina 2022" to celebrate this major anniversary. The serial number that guarantees the watch's exclusivity is at the bottom and the features that make this sophisticated watch special are on the sides.

Designed for the contemporary man and woman, fascinated by the timeless class of the most exclusive watches, this watch celebrates Festina's 120th anniversary, highlighting all the legacy of the brand, the perfect synthesis between classicism and elegance. Festina, which has played a major role in the history of watchmaking since 1902, has transformed the ordinary into the extraordinary over the years by combining classic and contemporary aesthetics, excellence in the materials used and a unique style.
