

New exclusive Lotus Excellent collection:

vintage aesthetics and a contemporary spirit

Retro style and cosmopolitan soul come together in the new **Lotus Excellent collection**, which reveals the brand's boldest side with a series of "time-only" proposals with a vintage flavour and a collection of chronographs with refined details.

A combination of clean lines and classic elegance characterises the Lotus Excellent watch range. Minimalist in its design, Excellent is the first Lotus collection to feature a highly original case with a **rounded octagonal** bezel. In the **Lotus 18841/1/2/3/4** series, the 40.5 mm case is made of stainless steel and houses a dial decorated with Clou de Paris motifs in silver, blue, green and black that are easy to see, with two hands and tilting hour markers, except for 12 and 6, presented in Arabic numerals. The models designed for a female wrist - **Lotus 18843/1/2/3/4** - include the octagonal stainless steel case, but with a smaller 32.5 mm size, and two dials and tilting hour markers, with the exception of the 12 and the 6 in Arabic numerals. The dial of the **Lotus 18843/2/3/4** watches features the Clou de Paris decoration in silver, pink and black. The **Lotus Excellent 18843/1** model is very particular, as its mother-of-pearl dial and crystal-set hour markers shine in a refined way.

Strong personality and technology make the **Lotus 18847/1/2/3** and **Lotus 18868/1 - 18848/1 - 18849/1** men's chronograph collection dynamic and versatile. With a generous 41.8 mm diameter, crowned by an octagonal bezel, the case is available in natural steel colours in the **Lotus 18847/1/2/3** range and with yellow gold, blue and black IP treatment on the **Lotus 18868/1**, **Lotus 18848/1** and **Lotus 18849/1** proposals, respectively. The wrist band has the same shades to achieve a distinctive tone-on-tone effect.

Reinterpreted and defined according to current trends, but also for different occasions, the Lotus Excellent range of women's chronographs has 16 different proposals that are surprising with their originality and precision. The **Lotus 18869/1/2/3/4** watch range integrates the past with the present. They are timeless and attractive chronographs that add personality to every outfit. The 36.5 mm octagonal stainless steel case showcases textured silver, blue, green and burgundy dials and baton hour markers, except for 12, which is presented in Roman numerals.

The design, texture and quality of the materials are also to be found in the stark two-tone and full gold sporty-chic proposals - **Lotus 18870/1** and **Lotus 18871/1** - which surprise with mother-of-pearl dials and luminous crystals in the place of hour markers, except for the 12, presented in Arabic numerals.

As an alternative, the brand offers authentic jewel watches with a unique design, the **Lotus 18873/1**, the most sophisticated with a yellow gold case and wrist band and encrusted crystals. The rose gold Lotus 18874/1 model surprises with the octagonal bezel studded with purple crystals that create an original juxtaposition with the dial in the same hue.

The Lotus Excellent women's collection is completed with six glimmering and bold chronographs dedicated to a daring woman who makes no compromises. The **Lotus 18872/1/2/3/4** series, with a luxury soul, combines the stainless steel case in the natural colour of steel and the dial colours in blue, burgundy, white and black textures. The outer bezel is embellished with white crystals set on a rose gold, blue, burgundy and black PVD base. On the corners of the bezel, eight zircons in highlighted colours stand out, defining its octagonal shape. The effect is amazing!

Playful and prized, the **Lotus 18876/1** and **Lotus 18877/1** chronographs defy fashion with exciting combinations of textures and materials. The **Lotus 18876/1** can be recognised by its yellow gold case crowned by an octagonal bezel set with white and blue crystals and a blue silicone wrist band matching the dial, crown and chronograph. The **Lotus 18877/1** is instead characterised by a rose-gold case, sub-dials and hour markers, while the choice of black for the wrist band, dial and buttons on the chronograph pursue elegance. The bezel with red crystals interspersed with the glimmer of eight white crystals is highly distinctive.

Lotus Excellent is an eclectic collection that embodies the contemporary spirit and reminisces the past. From timeless minimalist watches that charmingly enhancing any type of outfit, to the most sophisticated collections, ideal for breaking the austerity of the most formal looks.

FESTINA GROUP

With over 30 years of history, the Festina Group is today a prestigious international company specialized in the production and marketing of movements and precision parts for well-known watchmaking brands. To date, the Group markets 6 watch brands for the traditional market (Calypso, Lotus, Festina, Jaguar, Candino and Kronaby) and 2 jewelry brands (Lotus Style and Lotus Silver). The headquarters of the group are in Spain, while the main production centers are in Switzerland. Today the Group has seven subsidiaries (France, Germany, Italy, Benelux, Switzerland, Czech Republic/Poland and Chile), is present in over 90 countries on 5 continents and sells 5 million watches a year. The quality of the product, the excellent know-how and the special attention paid to the after-sales service contribute to making Festina Group the leading company in many strategic markets.
